

Errata

The following errata only pertain to the **first printing** of the *PMBOK® Guide—Fifth Edition*. In order to verify the print run of your book (or PDF), refer to the bottom of the copyright page (which precedes the Notice page and Table of Contents). The last numeral in the string beginning "10 9 8" etc. denotes the printing of that particular copy.

Minor editorial changes have been made to the text and figures. Notable corrections are listed below.

Errata sheets are commonplace in book publishing. Such documents list content revisions, and are typically a page or two in length. As the name implies, errata sheets are intended to correct errors and alleviate potential confusion. While errata sheets are not generated to correct simple typographical errors, the revisions may address errors of commission as well as those of omission. In each case, the object is to promote accuracy, clarity, consistency, and thoroughness.

The issuance of an errata sheet does *not* lessen the value of the original publication. Since the vast majority of a book’s content is typically unaffected by errata, an errata sheet should be viewed as a *supplement* to a viable publication.

In order to determine the print run of your book or version of your PDF, refer to the bottom of the copyright page (which precedes the Notice page and Table of Contents). You will see a descending numerical string of numbers beginning with 10. The first printing of the *PMBOK® Guide* will show the numerals 10 through 1. With each subsequent print run, the lowest numeral is removed from the string. Therefore, if your copy of the *PMBOK® Guide* has all 10 numerals, you have the first printing and you will need the errata sheet.

10 9 8 7 6 5 4 3 2 1 (Does need the errata)

10 9 8 7 6 5 4 3 2 (Does not need the errata because the changes have been incorporated into the reprint)
